TARIFF FORMAT

This Tariff is divided into the following major sections:

Section 1: Technical Terms and Abbreviations
Section 2: Rules and Regulations
Section 3: Service Descriptions and Prices
Section 4: Rate and Charges

A. **Page Numbering:** Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.

B. **Page Revision Numbers:** Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Pennsylvania Public Utility Commission. For example, the 4th revised Page 14 cancels the 3[1] revised Page 14. Because of various suspension periods, deferrals, etc., the Pennsylvania Public Utility Commission follows in its tariff approval process, the most current page number on file with the Pennsylvania Public Utility Commission is not always the tariff page in effect. Consult the Check Page for the page currently in effect.

C. **Paragraph Numbering Sequence:** There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:

2
2.1
2.1.1
2.1.1.1
2.1.1.1.1
2.1.1.1.1.1
2.1.1.1.1.1.1

D. **Check Pages:** When a tariff filing is made with the Pennsylvania Public Utility Commission, an updated check page accompanies the tariff filing. The check page lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check page is changed to reflect the revision.
